

About FA Design Build

With over 60 years of combined interior and spatial design, technical and project management expertise our professional staff presents a personally guided experience every step of the way. As a subsidiary of CCA Global's Flooring America, FA Design Build is housed in three beautiful showroom locations in the DC Metro area. FA Design Build is building dreams one design at a time.

"I first worked with Flooring America to replace the carpet in my basement, the stairs, and install hardwood in the rest of the house. The quality of work and the professionalism of the staff were excellent. Peter Meier (Sales Representative) was great! Because of my experience with Flooring America I chose to work with FA Design Build. I especially liked working with Jessica Cannon (Interior Architect). She put it all together for me. It was hard giving your home to someone, but in the end I just love my house. I was very pleased."
